

Heavy Pot Range

36" Frame, 4 - 40,000 BTU Burners

Model FK430
shown with optional
extra rack & casters

Featuring.....

High Volume Oven without a convection fan

deal for 14", 16" & 18" diameter pots and pressure kettles with top grates measuring $17\frac{3}{4}$ " x $13\frac{3}{4}$ ". Four, 40,000 BTU burners are properly centered for the extra power needed for large pots. These ranges are popular with Mexican, Italian and Asian cooking as well as churches and caterers who typically use large pots. The extra large $31\frac{1}{2}$ " wide oven is nearly 25% larger than the industry standard 26" ovens. The resulting superior air circulation allows additional volume or menu variety. Additional features include: sturdy welded frame, reinforced bar stock top frame to accommodate the heavy pots, easy cleaning stainless steel finish, and porcelain linings. Options include 18" griddles or char-broilers in lieu of 2 open top burners, extra racks and casters. Also available without ovens and as tabletop hot plates. ***The right range tool for the "big pot" job!***
